Schock Declares One Cent Tax on Gasoline Will Ruin Independents

The following telegram was re-ceived yesterday from E. E. Schock who is in Washington where he has gone to look after the interests of the independent refiners stail it cer-

the independent refiners and it certainly deserves the attention of every man having the interests of the Mid. Comment field at heart:

"Washington, D. C., Feb. 11, 1922. The ways and means commit we is in favor of a 1 cent tax on gazoline to pay the soliders bound. The independents could not stand it if the big companies were to abjorb the tax. Notify everybody to get husy. Congressman Chandler at Vinita should lie briged to come back to Washington, as the situation looks dangerous.

White Mr. Schock has discovered the real danger confronting the in-dependent retiners, the chances are he will receive but scant support as tions the oil men and sepecially the re-finers appear to be under the im-trict. pression that some sort of a tax is

inev.table.

The danger, as Mr. Schock points out, is from the fact that the big people could easily absorb the 1 cent per gallon tax, and not pass it on to the consumer. It would leave the independent refiner, who is always up against it at best, on account of the premiums he is paying and the exceptions, progets rates, and is in exorbitant freight rates, and is in competition with pipelines and the Burton system of refining, which is handlesp enough, without adding the 1 cent a gallon now susgested by Mr. Mellon, secretary of the treasury and at the head of the Gulf

Even were the tax placed at x cents, so that the additional burden would be passed on to the consumer, a large proportion of which are ex-service men, it would probably not be so bad; in this case the big people could not alsorb the added 3 cents per gallon, as they can do easily if the tax is only one cent and in addition, get the credit for being very patriotic.

Every one having the interests of the independent refiners at heart and by that is meant every one who knows more many millions are added annually to the income of the oil producers, should wire Mr.

cil preducers, should wire Mr. Schock and also the members of the house and senate representing Okta. homa, the one state which will be the most affected of them all. He should protest against this im-position and make it strong.

Okmulgee District Oil and Gas Association Opposes Tax on Gasoline

FOR SALE—Heavy string standard tools. Bargain for cash, Phone Gilliland Oil Going Osage 2735.

Wanted party with \$1,000 to come in with going oil company. Attractive proposition. How 228 M, World.

The Greatest Oil-Producing Pool Yet Developed in the Okmulgee District

The America Petroleum energora-tion is rigging up on a test in the southeast corner of the northwest of 12-12-11. This well offsets the Angle-Tex and North Baltimore corporations good well which is producing about 130 parrels and ap-proximptely a year old.

Into Tankage

and the Josey Oil company owns a half intress. The Lower Hurns corporation is a million-dollar office.

Now comes the report from corn organized February I by Mr. Lower and W. R. Entre of Detroit, Mich.

Total production in the Lyons pool in township it southwest of Okmail for intermediate to a check of pipeline range of that pool. New rigs up and locations made in the veck ending February 8 totaled 45 in this district.

New Test

The Amerada Petroleum corporation is a million dollar office of the pipeline capacity for the pipeline capacity for the pipeline capacity for the field.

New comes the report from Shrwe company of the Lyons Petroleum company, Indiahoma Religing company, Josey Oil company, February 8 totaled 45 in this district.

New Test

The Amerada Petroleum corporation is a million dollar of the pipeline capacity for the pipeline capacity for the pipeline capacity for the field.

New comes the report from middle of the four sections and drilling wells of the Lyons Petroleum company, Indiahoma Religing company, Josey Oil company, Josey Oil company, Fig. L. Robinson, F. R. Letcher and Chama-Central Oil company, Carrier Oil company, Carrier Oil company, Company, Carrier Oil company, Company, Carrier Oil company, Carrie

which were heretofore held on the top of the sand. This, of course, is bad news as the oil fraternity was lookier, upon being developed in the common sense way of storing the oil in the ground. If the drilling now becomes active in Haynesville, as it likely will, it is evident that the Louisana Refining company will take care of the Haynesville as a field which was being developed in the common some way of storing the oil in the ground. If the drilling now becomes active in Haynesville, as It likely will, it is evident that the Louisana Refining company will take care of its own oil as the Gilliand oil corporation, is lack from Shrevepert, La., and back from Shrevepert When this capacity is exceeded it is thought by many that the Standard will pro rate the rurs.

Southeast of Morris

The Iron Mountain Oil corpora-tion is spudding in on its well, in the northeast corner of the southwest of the southwest of 22-13-14, southeast of Morris. The first well on this lease is producing 10 barrels per day from the Booch sand, and was completed in June, 1918.

Small Bartlesville Producer

Waite Phillips' well in the center of the east line of the southeast of 5-23-11, Osage, was given a small show in the Bartlesville sand and is estimated at 50 barrels daily pro-

association at its regular meeting today.

The opposition of the association
directors is based upon the fact that
the tax is a penalty upon the folt that
the tax is a penalty upon the folt industry rather than upon luxury, as
the proponents of the tax in congress have claimed.

With the Oil Men

Guy Forcier of the Lake Side Refining company of Chicago, is in the city and announces that his concern will be ready to operate the newly acquired refinery at Augusta. Kan. with 1,500 barrels daily capacity, about the first of April. The new plant will be equipped with the Jenkins process, and it will therefore be possible to get a good line on that method of refining. He also states that the American Gasoline corporation, owned by Shelby Black and his brother, W. C. Black, will start up about the same time their newly acquired refinery formerly newly acquired refinery formerly owned by the North American, and located out near the Standard's big refinery at Kansas City. It also will be equipped with the same process.

Dr. Wilhoit, of the Doctors Oil company, who is just back from Europe, was in Tulsa yesterday looking over the field and in confer-Special to The World.

OKMILIGEE. Feb. 11.—Opposition to the preposed tax on gasoline entering of the Okmilige District Oil & Gas association at its regular meeting to day.

The opposition of the association of the association divertors is based upon the fact that the fact size a penalty upon the oil includes the Pure Oil company, in command. The new concern is bound to be per cent of the Gas Gas association divertors is based upon the fact that the fact size a penalty upon the oil includes the pure Oil Company, in command. The new concern is bound to be per cent of the Gas Gas association divertors in the pure Oil company, in command.
